Problem	
What is happening <u>now</u> ?	
<u>Why</u> is change needed?	
Solution	
What <u>evidence</u> can we draw on to address this?	
What are the <u>keys</u> to making an impact?	
Where will we <u>start</u> ?	
What will we <u>do</u> ?	
How can we <u>sustain/scale</u> this?	
What do we need to be <u>careful</u> of to stay on track?	
Have we checked that <u>other</u> things don't need attention first?	
Outcomes	
What <u>baseline</u> data should we capture?	
How will we know <u>how well</u> it is going?	
What <u>outcomes</u> do we want to see in future?
